

Amendments to the Drawings:

The attached Replacement Sheet of drawings includes changes to Fig. 1. This sheet replaces the original sheet including only Fig. 1. The changes made to Fig. 1 are illustrated in the attached Annotated Sheet Showing Changes. As shown, Fig. 1 is amended to add handsets 11 and 12 and to change the reference numeral of transaction records database from 12 to 20. The additions of handsets 11 and 12 to Fig. 1 are supported by the specification of the present invention. For example, the specification for the present application describes at page 6, lines 19-24 that Fig. 1 includes handsets 10, 11 and 12. Thus, entry of this amendment does not add new matter into the application of the present invention.
